Dear Colleagues,

The Educators and Scientists Free Trade Union of Georgia (ESFTUG) condemns the aggression of Russia against the State of Ukraine. The Georgian teaching society as well as the Georgian people expresses their solidarity and support to the people of Ukraine. We are well aware of those pains and tragedy that Russian aggression brings. Unfortunately, we have lots of experiences at different stages of our history. And in the recent years, meaning the 2008 Russian attach on Georgia.

We are admired by the courage and principality of the Ukrainian people, what we are sure comes from a great deal of credit to Ukrainian teachers who have been able to raise freedom-loving and national-minded people generations.

The ESFTUG expresses the solidarity of our members with Ukrainian teachers, academic staff, students and schoolchildren.

We express our readiness to host the groups, sent by our Ukrainian sister organizations at the ESFTUG leisure-training venue in Georgia, both during this difficult period and afterwords, we are deeply confident that you will win this war!. During the stay in Georgia, Ukrainian colleagues will be provided by the ESFTUG.

While our members are actively involved in various humanitarian campaigns, we ask you to let us know what kind of humanitarian assistance you need for the learning process and the household needs of teachers.

Wishing you victory and peace

Слава Україні 

In Solidarity and Respectfully

MAIA KOBAKHIDZE
ESFTUG President
