

ORGANISING AROUND IDEAS

A MANIFESTO FOR SCHOOLS

Ideas act as a pole of attraction, as a motor, and are fundamental to achieving common goals.

CONSTITUTION OF THE ITALIAN REPUBLIC (1947)

Article 3

All citizens shall have equal social dignity and shall be equal before the law, without distinction of gender, race, language, religion, political opinion, personal and social conditions.

It shall be the duty of the Republic to remove those obstacles of an economic or social nature which constrain the freedom and equality of citizens, thereby impeding the full development of the human person and the effective participation of all workers in the political, economic and social organisation of the country.

Article 33

Arts and science shall be free and may be freely taught. The Republic shall lay down general rules for education and shall establish State schools of all types and levels. Entities and private persons shall have the right to establish schools and institutions of education, at no cost for the State...

Article 34

Education shall be open to everyone.....

OUR KEY PRINCIPLES

**PUBLIC
SCHOOL**

**TEACHING
FREEDOM**

In the last twenty years the Italian education system has been “scourged” by an impressive sequence of reforms, five ministers five reforms. Unions and workers have not been consulted or involved.

→ dramatic increase in labour court cases, but collective bargaining still a tool to find solutions.

Then the 2008 crisis

→ governments use legislation to try to replace collective agreements and weaken unions

DON MILANI E LA SCUOLA DI BARBIANA

We have given new impulse to our fight by coalescing workers around these principles

1) The school is a common good that belongs to the country and cannot be the subject of non-shared reforms, taken from above.

(The opposite of what happened in the last 20 years)

2) The school is open to all, even to new Italians and to anyone arriving in our country.

It is functional to the removal of inequalities (In the spirit of the Constitution)

Collective bargaining started again, a new collective agreement was signed in 2018, unfair legislation was modified.

BUT...

A NEW CHALLENGE IS THREATENING THE EDUCATION SECTOR → REGIONALISATION
